VISION

MISSION

We aim to be a leading innovation hub that helps make Kaunas a recognised high-technology centre in Europe by advancing defence, agro-biotechnology and ICT industries.

01

Support deep-tech teams from idea to growth.

02

Connect science, business and public partners.

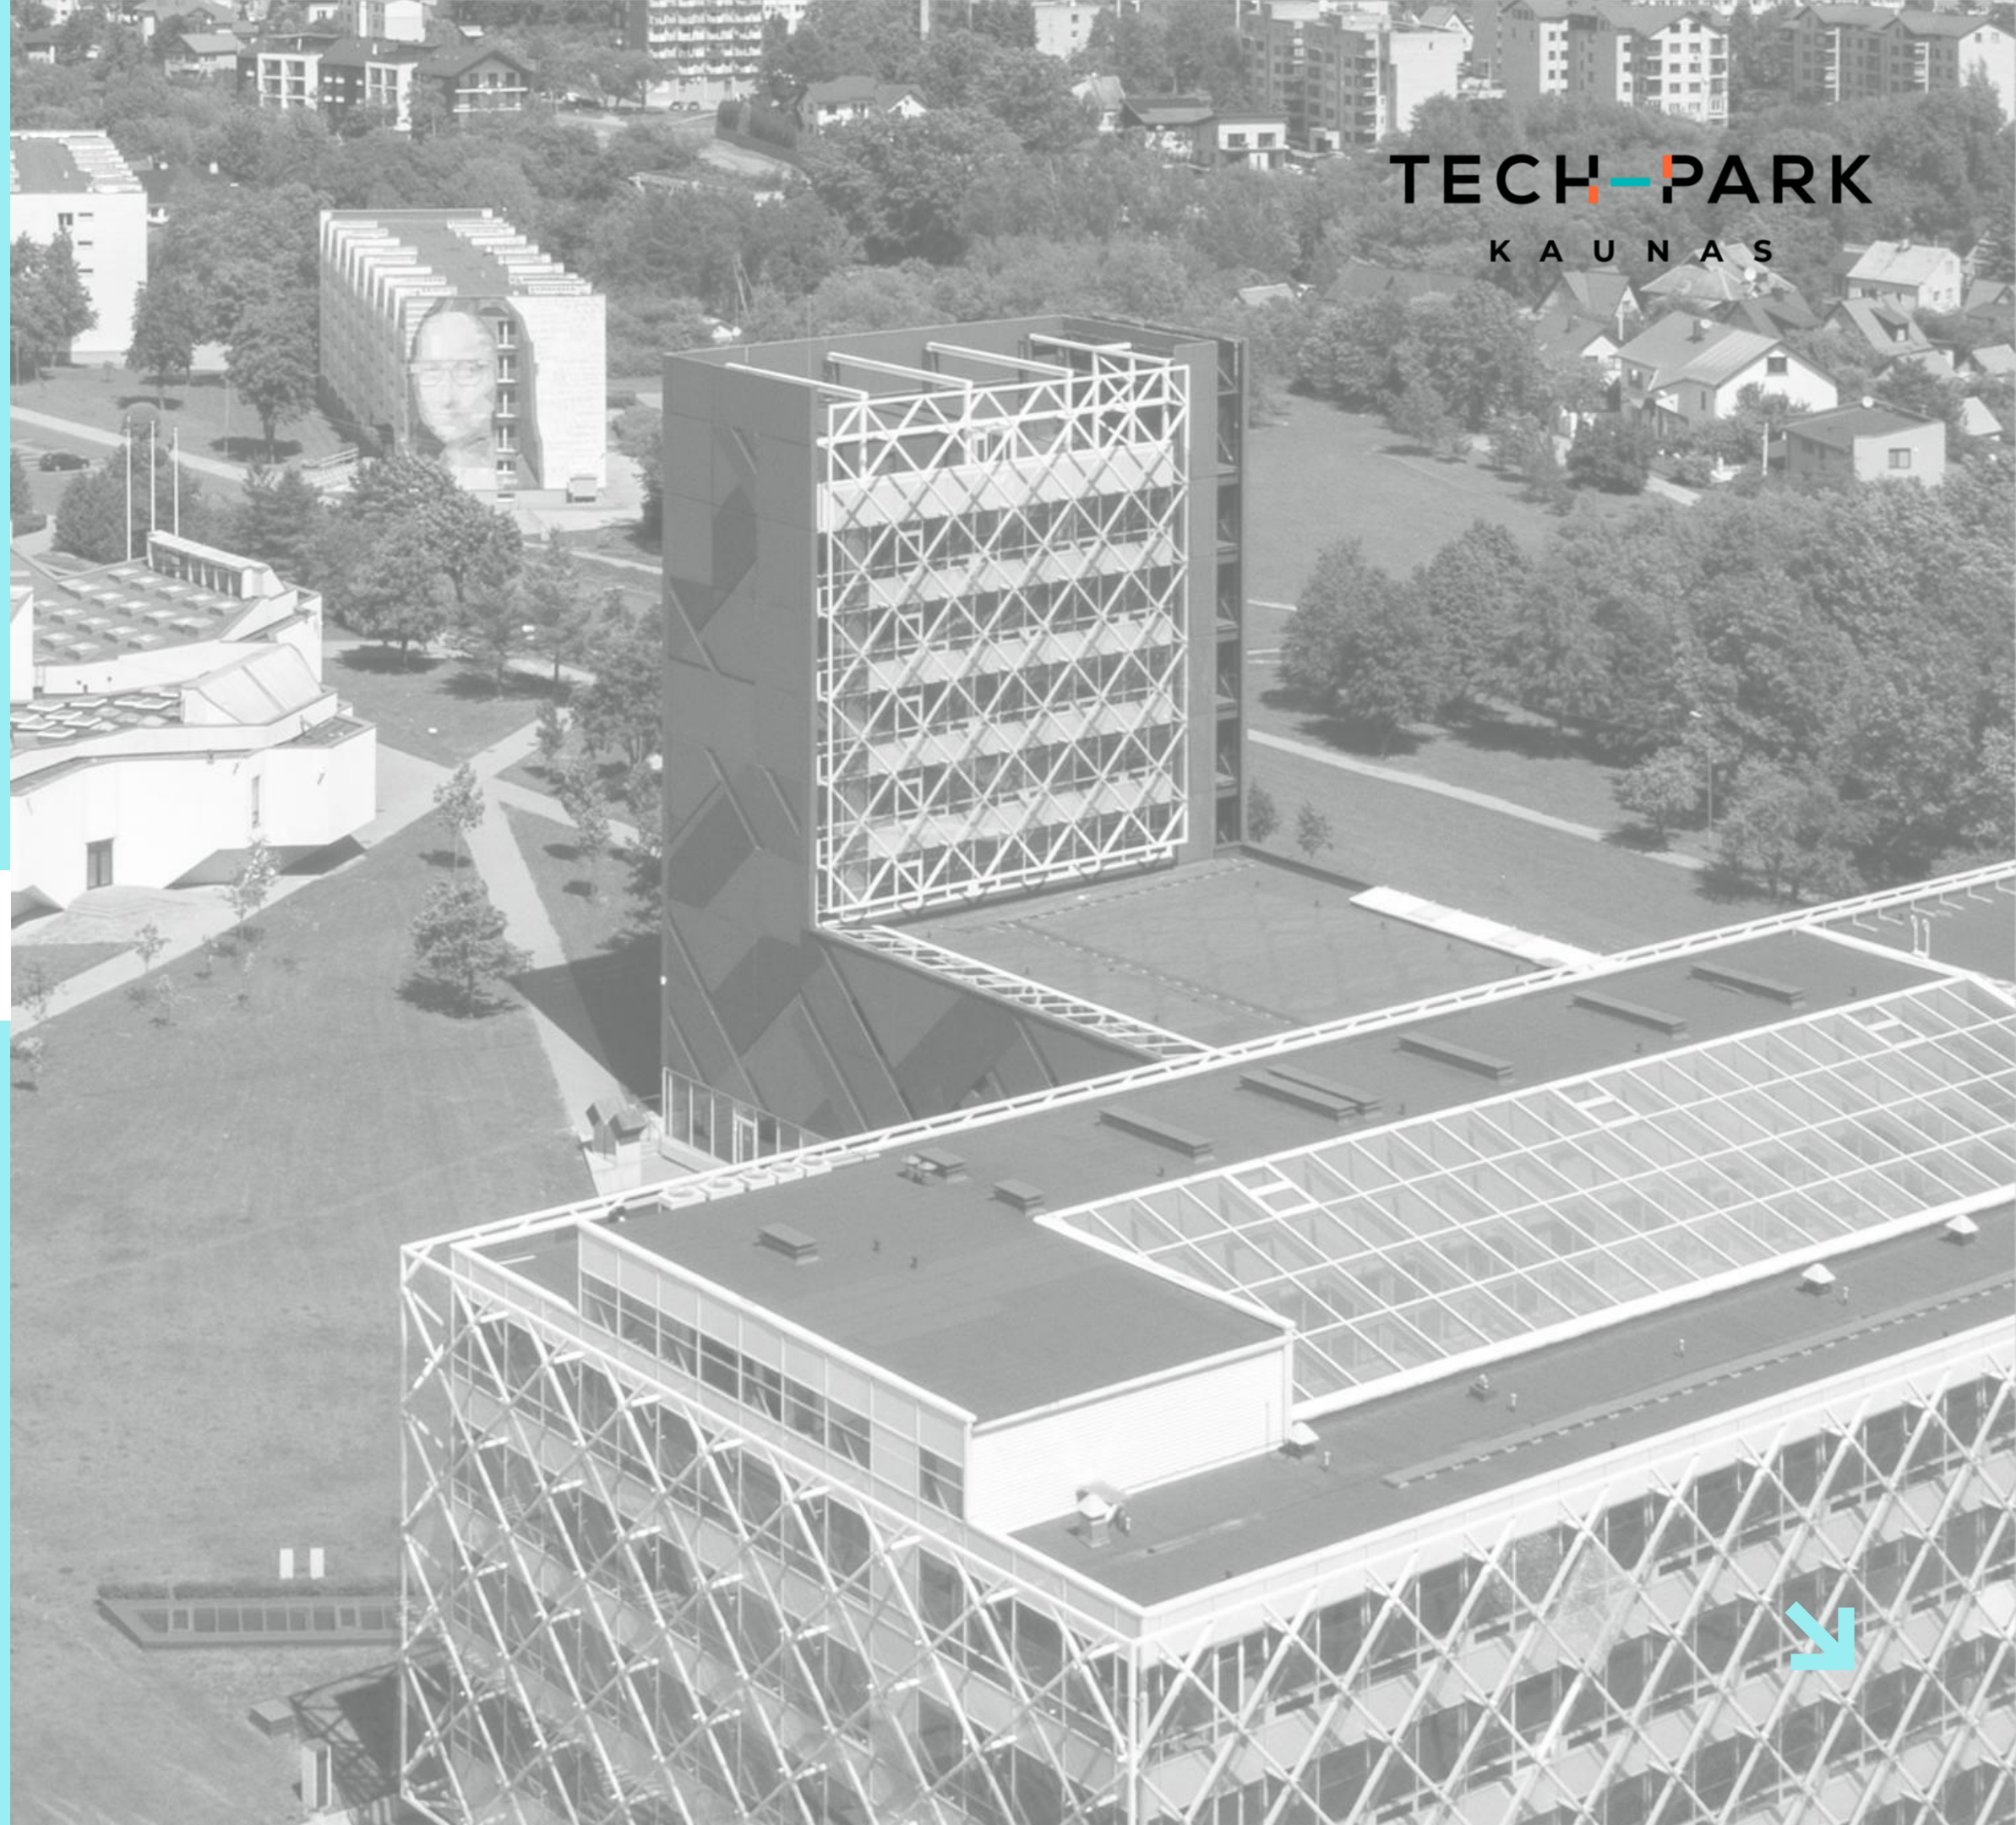

03

Create the conditions for new technologies to develop in Kaunas.

techpark.lt

GROWING KAUNAS THROUGH DEEP-TECH INNOVATION

STRATEGIC FOCUS AREAS (2026-2032)

LONG-TERM PRIORITIES:

innovation support, startup & scaleup growth, and ecosystem development in Kaunas region.

Deep-tech sector development, with a focus on **health & biotechnology, agro-biotechnology, defence & space, and ICT.**

Startup pre-acceleration and scale-up support, from idea validation to international market entry.

Large-scale innovation infrastructure development, including Agro-Biotechnology Park and Dual-use prototyping and testing facilities.

International partnerships and funding attraction, engaging universities, EU programs, and global innovation networks.

Innovation culture and talent development, fostering entrepreneurship, collaboration, applied R&D, and technology commercialisation.

LITHUANIA'S STARTUP LANDSCAPE

RAPID GROWTH & VALUE

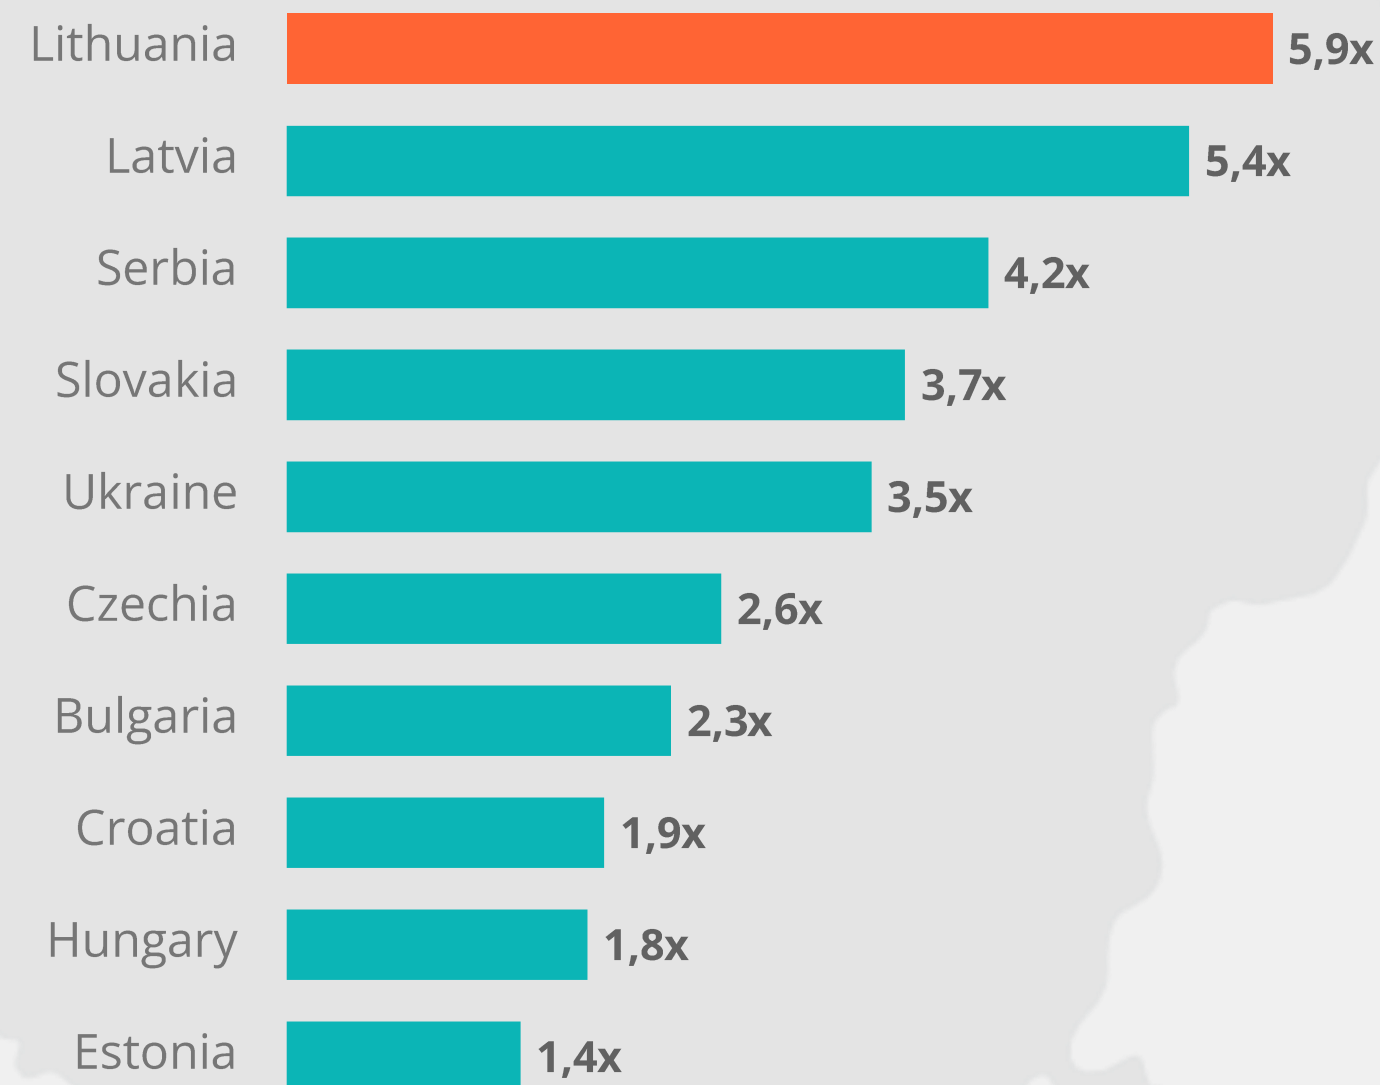

Lithuania boasts the fastest-growing startup ecosystem in CEE. The total value reached 16.4 billion in 2025, a nearly sixfold growth since 2020. This rapid expansion highlights a dynamic and fertile ground for innovation.

STARTUP SEGMENTS & DEPTH

The ecosystem included over 1200 startups across diverse industries. Key segments include 200+ enterprise software, 190+ fintech, and 110+ health-tech startups.

Lithuania is still the fastest growing ecosystem in CEE region

EU & GLOBAL COLLABORATIONS

Our project portfolio supports deep-tech innovation, talent development and cross-border collaboration.

DIGITAL ROCKET LT

Established in **2016**, the cluster is an **AI-centric** competence hub. We unite **30+ hardware and software leaders** from the ecosystem to build **data-driven** solutions integrated to **intelligent urban environments**, focusing on **health tech, green energy, and robotics**.

DIGITAL ROCKET LT

Certificate **LTU012202403C241257**

Cluster Management Excellence Label BRONZE – Striving for Cluster Excellence

Digital Rocket LT

fulfills the set of "Eligibility Criteria for Cluster Management Excellence Labels" of the European Cluster Excellence Initiative (ECEI) and has participated in a cluster benchmarking process according to the ECEI methodology.

The certificate expires on February 28th, 2027.

COMMITMENT TO

As innovators community, we develop technologies and sustainable relationships with each other and the environment, integrating the United Nations Sustainable Development Goals (SDG17) into our daily activities.

Tech-Park Kaunas supports

DEFENCE & DUAL-USE INNOVATION ECOSYSTEM

Lithuania is rapidly growing in drones, secure communications, sensors and space technologies, with the defence tech sector expanding 39× in a decade and raising €167.7M in early 2025.

YERALY DEFENCE HACKATHON - UGNINIS SKYDAS

Since 2023, Tech-Park Kaunas has hosted the national defence hackathon, uniting developers in AI, drones, cybersecurity and dual-use innovation. In 2025 it gathered 138 participants and 176 conference guests.

ECOSYSTEM LEADERS

Lithuania's Tough Tech ecosystem includes 20+ high-value defence and deep-tech companies, many of which grow within or actively collaborate with Tech-Park Kaunas. Together they form a strong €250M+ innovation base.

DUAL-USE & DEFENCE STRATEGIC DIRECTION

STRATEGIC INVESTMENTS & PARTNERSHIPS

Tech-Park Kaunas strengthens Lithuania's dual-use and defence innovation through international partnerships and the **20M € Vytis Defence and Security Innovation Center**.

2026 PRIORITIES & LONG-TERM VISION

In 2026, we will advance the Vytis prototyping and testing centre, develop the Agro-Biotechnology Park with VMU, and host the **Cassini Space Innovation Hackathon**. Our long-term goal is to build an **internationally competitive deep-tech ecosystem by 2032**.
